

THE MOHAVE MINER.

C. M. FUNSTON, Editor.

KINGMAN, JANUARY 28, 1888.

Philadelphia had a million dollar fire this week.

The President is sending lots of nominations to the Senate.

The House on the 24th instant passed a resolution confirming Mr. Carlisle's seat in that body.

Marshall MacDonald, of Washington City, has been appointed U. S. Fish Commissioner.

It is reported that upward of one thousand persons were frozen to death in Dakota during the recent cold weather.

The First National Bank of Auburn, N. Y., has suspended, and the cashier and bookkeeper are supposed to be in Canada.

The Santa Fe road is selling round trip tickets to Santa Fe, New Mexico, good for sixty days, from Missouri River points for \$28.85.

At Neche, in North Dakota, on the 24th inst., the thermometer registered 60 degrees below zero and the wind blew at the rate of forty miles an hour.

Statistics concerning recent smallpox cases in Sheffield, England, show that out of 2,725 patients last year 2,198 were persons who had not been vaccinated, against 382 vaccinated persons.

The United States Supreme Court has rendered a decision in the Maxwell-Preller murder case, dismissing the case for want of jurisdiction. The effect of the decision is to affirm the sentence of death pronounced by the Missouri State Court.

Walter M. Gibson, for ten years Premier and Minister of Foreign Affairs in the Sandwich Islands, died at San Francisco, Cal., on the 22d inst. The deceased had a very remarkable and adventurous career. For nearly ten years he was virtually ruler of King Kalakaua's domains.

It is a matter that cannot be obviated but it is pretty clearly known that a large number of the insane persons brought to the insane asylum here from Pima and Cochise counties are freshly smuggled over from Mexico after the diseased condition of their minds became evident—Arizona.

The mining items pertaining to this county printed in the Miner are copied by at least a dozen of our exchanges outside of Arizona, some of them metropolitan daily papers. Thus it will be seen that it is to the interest of the miners of this section to furnish us with all the mining items of interest, and we desire to hear from each district as often as once a week.

The Milwaukee Brewers have issued a circular addressed to their employees notifying them that on January 26th that every member of Brewers' Union, No. 9, will be discharged unless he consents to leave the Knights of Labor. The circular states that the brewers are prompted to take this stand by the action of the Union in supporting the boycott being waged against their beer.

The Supreme Court of California has reversed the decision of the Superior Court of Los Angeles in the case of John Hall against the county of Los Angeles. The suit was an action brought for twenty-five hundred dollars' damages. Hall is an architect and made slanderous remarks against the Supervisors and the latter cancelled the contract awarded him for the county jail. The court held that the contract could not be cancelled for slander.

A Calumet special says: A cave-in at the Calumet and Hecla mines Saturday made an aperture extending fifty feet from the shaft, but it has been successfully closed and the burning shaft again sealed. Professor Agassiz, President of the company, says, after personally inspecting the condition of the mine, that he considers the fire almost out, and the question of its complete extinguishment is only one of a few days, and that the shaft which has been burned can be opened very soon.

It is announced that the German chemists have succeeded in making a first-rate brandy out of sawdust. What chance will the prohibition movement now have when a man can get a nip-saw and go out and get drunk with a fence rail? What is the use of a prohibitory liquor law if a man can make brandy smashes out of the shingles of his roof, or if he can get delirium tremens by drinking the legs of his kitchen chairs? You may shut an inebriate out of a gin shop and keep him away from a tavern, but if he can become uproarious on boiled sawdust and desecrated window sills any attempts at reform must necessarily be a failure.

The mail service on the Atlantic & Pacific Railroad has been for some time in a eady demoralized condition and no attempt to improve it has been made. Where the trouble lies we know not. San Francisco papers which should reach here within thirty-six hours after publication are from two to ten days in reaching this office, and many times a half dozen issues will reach here by a single mail. There is no certainty of letters being delivered within the time they should be, although more care is evidently taken to forward the letter mail than with the paper. Complaint of the inefficiency of the mail service is heard from all over the country, and for our wise men at Washington would pay little attention to the tariff, the surplus and like chimerical questions, the country would be better served and some time during a session of Congress the affairs of the Postoffice Department might receive the necessary attention and relief.

After the Lotteries.

Mr. Glass, of Tennessee, and Mr. Hogg, of West Virginia, are after the lotteries, and each has introduced a bill to punish the selling, buying or advertising of lottery tickets. Mr. Glass' bill applies to the District of Columbia, where quite a business is transacted by agents of the lottery companies, and he proposes to stop it by making it a crime punishable by a fine not to exceed \$1,000 and not less than \$100, or imprisonment not to exceed one year in jail.

Mr. Hogg's bill applies to all the Territories as well, and contains the following iron-clad provision: "That if any person shall set up or promote, or be concerned in managing a drawing or lottery or raffle, for money or other thing of value, or knowingly permit such lottery in any house under his control, or knowingly permit money or other property to be raffled for in such house, or to be won therein by throwing or using dice, or by any other game of chance, or knowingly permit the sale in such house of any chance or ticket in, or share of a ticket, in a lottery, or any writing, certificate, bill, token, or other device purporting or intended to guarantee or assure to any person, or entitle him to a prize, or share of interest in, a prize to be drawn in a lottery, or shall for himself or another person, buy, sell or transfer, or have in his possession for the purpose of sale, or with intent to exchange, negotiate or transfer, or shall aid in selling, exchanging, negotiating or transferring, a chance or ticket in, or a share of a ticket in, any lottery, or any such writing, certificate, bill, token or device, he shall be confined in jail not more than one year, and fined not exceeding \$500."

It further provides that any prize drawing shall be forfeited to the United States Government. Mr. Glass also introduces a bill making it a punishable offense to send any matter through the mails concerning a lottery or to publish in any newspaper or pamphlet any lottery advertisement. The penalty for violation of the law is a fine of \$500 or one year's imprisonment or both.

WASHINGTON LETTER.

(FROM OUR REGULAR CORRESPONDENT.)

WASHINGTON, Jan. 16, 1888.

Although Congress has been in session six weeks and a thousand bills have been introduced, only one bill has passed both Houses, and that one is of special interest to the large number of people who are given to the sport in which their patron, Isaac Walton, so distinguished himself, and also to that still larger number who are fond of fish, but not of fishing—the bill in question being to pay the United States Fish Commissioner a salary of \$5,000 a year and providing that he shall hold no other Federal office. Heretofore, the position has not been a salaried one—the late Professor Spencer F. Baird having thus served the country gratuitously several years. It is thought the measure will become a law, as the President is known to have a friendly interest in piscatorial matters and to be favorable to the development of the fishing industries of the country. While on this subject it may be well to mention a new complication that will have a disturbing influence upon the deliberations of the International Fisheries Commission, now in session at the Capital, and that is a complaint of our fishermen on the great lakes similar to the grievance of the New England fishermen against their Canadian neighbors. The matter was presented to Secretary Bayard by Representative Chipman, of Michigan, and the State Department telegraphed an immediate protest to the British authorities.

There came near being a sectional controversy in the Senate the other day, the provocation being a short speech of Senator Chandler on his resolution of inquiry as to the alleged suppression of colored votes at the recent municipal election at Jackson, Mississippi. After a few common-place comments from three or four Senators, and the passage of the resolution, Senator Riddleberger remarked that there was no concealment of the fact that the resolution was intended to affect matters that ought to be considered only in executive session, and he gave notice that, as to himself, he would vote for the confirmation of Mr. Lamar. This is the second shock of Senatorial dignity within a week, as Senator Stewart, of Nevada, has made a declaration similar to that announced by the Virginia Senator. It is now thought that Mr. Lamar's confirmation is assured, as it is assumed that all the Senators of his own party will support him; he will then need but two Republican votes, and Messrs. Stewart and Riddleberger have pledged these. The case is very likely to be considered to-day, likewise the nomination of Messrs. Vilas and Dickinson. No issue is raised against the two latter gentlemen, and it is supposed that their nomination will be confirmed without further delay after Mr. Lamar's case is disposed of, as it comes first on the Senate calendar.

As foreshadowed in my last letter, the President has appointed Gen. Edward A. Bragg, of Wisconsin, to be Minister to Mexico, and though Mr. Stockslager has not yet been made Commissioner of the General Land Office, I am inclined to think he will be given the place immediately after Mr. Vilas takes charge of the Interior Department. Several officials of that department are in dread of the probable changes that the new Secretary may make, for experience has taught them that an incoming Secretary must provide a few offices for his friends. There has been a Chief Clerk of the Interior Department in ten months; upon the resignation of the Chief Clerk at that time, Secretary Lamar appointed an Acting Chief Clerk, but he, after serving six months, resigned, and then another was appointed and he is still acting. These facts are given to illustrate the one predominating characteristic of Mr. Lamar, and a single word—procrastination—tells the story. This is his great failing—constitutional indolence. Mr. Vilas will appoint a Chief Clerk before he himself is in office a week.

TERRITORIAL ITEMS.

The debt of Tucson is \$28,894.

Yuma county has schools open in every district but two.

The melting snows will cause a rich harvest for placer miners.

The Copper Queen mine at Bisbee is now lighted by electricity.

Bricklayers at Phoenix receive six dollars per day and want seven dollars.

Wm. Lowell has resigned the position of Deputy United States District Attorney.

The delinquent tax list of Cochise county takes eight columns of the Epitaph.

The Supreme Court is to meet in adjourned session at Tucson, on the first of March.

Two men were injured by the premature discharge of a blast at Walnut Grove last week.

A number of new enterprises will be started up near Yuma within the next two months.

A prisoner by the name of J. Spig was released from the penitentiary last week, his term having expired.

Eight different canal projects are being prosecuted between the junction of the Salt with the Gila river and Yuma.

There are sixteen invalids from Pomona, Cal., wintering at Yuma, and the Sentinel says they all are growing stronger.

Deputy Marshal Will Smith has arrested Ballard Brothers for stealing telegraph wire from the Government telegraph line in Graham county.

Mr. Geo. H. Daily, Clerk of the District Court of Cochise county, has been appointed Commissioner of the same County by Judge Barnes.

The Phoenix Herald wants Sampling Works, and it claims that the mining country adjacent to that town would make the works pay handsomely.

Last week Detective Smith arrested and convicted, at Wilcox, six Mexicans, three Americans and two negroes on a charge of stealing goods from the train near Wilcox.

Tucson is determined to have an arbor day. Mr. J. S. Mansfield, of that city, offers \$100 to the boy or girl that will plant and keep alive the greatest number of trees in that city for one year.

John O. Dunbar, through S. C. Symonds, to whom was assigned the account, has instituted suit against R. P. Merritt and the Gazette Publishing Company for the recovery of one thousand odd dollars for services rendered as editor of that paper.

In the train robbery case, tried at Tucson in the United States District Court last week, George Green turned State evidence and gave the whole thing away. Doc Smart and Geo. Green were found guilty. Snyder and Skidmore were found not guilty and were discharged.

Kid Single, charged with stage and train robberies, was recently captured in Missouri by Sheriff Owens, of Apache county. While returning via the Texas Pacific Kid, though shackled, escaped by jumping from a moving train near Toyah, in Texas.

A Tucson Star special from the San Carlos says an Apache Indian who had been put in the guard house for getting intoxicated asked to see his wife and child. When they were taken to him he cut their throats, put them in bed, set the bed on fire and rushed for the sergeant of the guard with a club and knife, but was riddled with bullets and killed.

For the quarter ending December 31st last 42 prisoners were received at the Yuma prison, eight were discharged, 2 pardoned and 4 killed in attempting to escape. There are now on hand 134 prisoners. It is a remarkable truth that during the past six months the only deaths that have occurred were the four Mexicans killed in the recent desperate break for liberty.

The Supervisors of Apache county, at their January meeting, examined the financial condition of that county. The total indebtedness is \$120,000. Jacob Barth, of Grand Rapids, Mich., presented warrants aggregating \$15,000, \$11,000 of which were found to be forgeries, and as such marked and returned to Barth. Solomon Barth, brother to Jacob, is now serving a ten-year term in the Yuma Penitentiary for the forging of these same warrants.

Deputy Sheriff James Thomas arrived on Thursday afternoon from a successful chase after McNeil, who escaped about three weeks ago from the Phoenix jail. McNeil it seems went through Florence riding one of Mr. E. F. Kellner's horses, and he was recognized a few days later at Mineral Creek. Sheriff Fryer then detailed Deputy Thomas to trail the man and he followed the culprit to Duncan, near Clifton, where he caught him and recovered Mr. Kellner's horse. McNeil is quite a young man and affects a verandah that is in strange contrast with his alleged record.—Florence Enterprise.

A somewhat novel but exciting foot-race took place at the San Xavier Mission on Sunday last. Two sides of four runners each were organized and the distance of the race was six miles and return, making a total distance of twelve miles, which was covered in considerably less than two hours' time. Before starting there was much betting done, not alone by the racers themselves, but by their friends. Everything was put up, even to the clothing discarded by the racers, who were stripped of everything but their gaiters. The system of betting was somewhat unique. If two bucks bet their breeches, off came the garments, and they were tied together. This same law held good all through. A wicket was selected and the articles wagered piled on the floor, the winners to take all on their return, which they did in good style. There was no quarrelling or bickering among them. To the victors belonged the spoils, and the losers had nothing to say against the distribution.—Arizona.

Last week Senator Beck received the cordial congratulations of his friends and admirers on his third election to the Senate, an honor that Kentucky has conferred upon no other man. The Senator is a tower of strength to his party, and is regarded as somewhat of an oracle on questions of finance and tariff. The scholarly and satirical Senator Ingalls, President pro tempore of the Senate, has been receiving the condolences of his friends upon the loss by fire of his fine dwelling and valuable library in his Kansas home, the disaster involving the bulk of the Senator's savings, about \$20,000, as the insurance was that much short.

Wonderful Cures.

W. D. Hoyte & Co., Wholesale and Retail Druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by Watkins Bros.

G. A. R.

At the first Department Encampment of the Grand Army of the Republic, held in Phoenix last week, the following officers were elected to serve for the following year:

Department Commander, A. L. Grow, Burnside Post, No. 2, Tombstone.
Sr. Vice Commander, Hampton Ellis, Alexander Post, No. 6, Globe.
Jr. Vice Commander, Edward Schwartz, John W. Owen Post, No. 5, Phoenix.
Medical Director, T. E. Wharton, John W. Owen Post, No. 5, Phoenix.
Chaplain, G. W. Saunders, Negley Post, No. 1, Tucson.

Council of Administration, George W. Brown, Negley Post, No. 1, Tucson; Geo. A. Allen, Alexander Post, No. 6, Globe; Geo. F. Coats, John W. Owen Post, No. 5, Phoenix; B. S. Coffman, Burnside Post, No. 2, Tombstone; — Savage, T. G. Ransom Post, No. 4, Flagstaff.

Representatives to National Encampment, B. C. Parker, Negley Post, No. 1, Tucson; alternate, Geo. F. Coats, Phoenix; Geo. F. Coats, Quartermaster-Synod for the Department; T. S. Atchison, A. A. General for the Department.

The next Department Encampment was fixed by vote to meet at Tucson.

A Distinguished Clergyman's Testimony.

Rev. H. M. Pickett, President of the Methodist Protestant Church of South Carolina, writes from Greenville:

"About four years ago I was attacked with what the physicians pronounced neuritic rheumatism, accompanied with erysipelas. My appetite failed me entirely, and I had an intermitting pulse and very irregular pulsations of the heart. A terrible pain came into my chest and shoulders, and I became so helpless that I could attend to no business at all. The pains were morbid, and would sometimes pass from one part of my body to another. Finally the erysipelas broke out on my left hand and arm, and produced much swelling. I was for eighteen months afflicted in this way, and of course used a great many kinds of medicines, but nothing gave me relief. Friends finally persuaded me to try Dr. King's New Discovery, and I noticed improvement while taking the first bottle. I continued its use until I had taken about one dozen bottles, when I found myself sound and well again, with no sign of disease left except a stiffness in my hand, a result of the erysipelas. While taking the medicine I gained on an average two pounds of flesh per week. I think \$5 a valuable medicine, and I frequently recommend it to my friends."

Write to the SWIFT SYRUP CO., Atlanta, Ga., for a Treatise on Erysipelas and Skin Diseases, mailed free to anyone.

Bucklen's Arnica Salve.

The best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Watkins Bros.

PIANOS

GAINED 1st PREMIUM for greatest merit at the New Orleans Cotton Centennial Exposition for reduced and wonderful power of tone, elegance of design and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases stoutly constructed, finished—finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, the great invention ever made in pianos. It consists of stationary steel tuning pins that are set in a mold and molten steel is run round the pins, keeping them solidly in place. A double or triple pin is made to exactly fit the stationary pin revolving thereon; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the real plank being of steel is not affected by ex. remes of climate. This will be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.

Great strength and durability is an other advantage. In either of one hole are bored in wooden boards and tuning pins inserted. The pin turn round in this board and can not stand permanently in tune, and it often cracks, splits, dries out, becoming utterly, totally and entirely worthless as a musical instrument. Our steel tuning device is in no way affected by such casualties, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tuning is saved. This patent alone is worth millions and makes our pianos the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save \$100 or \$200—double profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of \$200 slipping away—pity them.

We guarantee our pianos ten years, 100 notes. We have put our prices at lowest bed rock for cash. A \$500 piano for \$249.50; a \$600 piano for \$279.50; a \$1,200 piano for \$375.50; a \$1,500 piano for \$475.50. Upright Cabinet Grand, with steel and rubber cover, shipped on board cars at 8 P. M. to any part of the United States, Canada or Mexico. Our terms are cash with order, or as represented money returned. We occasionally have good second-hand pianos for sale over at \$100 or \$200, which we take in part payment for our own. Write or call for catalogue, free.

T. M. ANTISELL PIANO CO., Office & Warehouses, Odd Fellows' Hall, Cor. Market & 7th Sts.; Victoria, Folcom, Stewart & 18th Sts., San Francisco, California. (Agents wanted.)

E. F. THOMPSON, Gus W. BEECHER.

ARTICLES OF INCORPORATION.

KNOW ALL MEN BY THESE PRESENTS, That we, Ben. H. Spear, W. H. Taggart, E. Williams, Wm. G. Blakely, Robert Steen, James J. Hyde, Gus W. Beecher, William Richards, O. F. Kuencer and E. F. Thompson, all of the County of Mohave, Territory of Arizona, have associated ourselves together for the objects and purposes hereinafter mentioned, and desiring to become incorporated under the laws of the Territory of Arizona, in such case made and provided, do hereby subscribe and acknowledge these articles of incorporation, viz:

First. The name assumed by this corporation, and by which it shall be known and transact its business, is "The Mohave Mining and Milling Corporation," and as such it shall have an existence or duration for the term of Thirty (30) years from the date of the filing of these articles.

Second. The enterprise, business, pursuit and occupation for which this corporation is formed are to purchase or otherwise acquire mining lands, mines, mining rights or interests therein, mills, furnaces and other property; to purchase or otherwise acquire mill sites and water privileges; to mine for gold and silver and other minerals and metals; to purchase or otherwise acquire gold and silver ore and other ores, minerals and metals; to carry on processes for preparing ores, minerals and metals for market, and marketing the same; to mill, stamp, crush, smelt, refine and treat gold and silver ores, and other ores, minerals and metals in any method for sale and to sell the same; to sell, let, lease or otherwise dispose of any mines, claims, lands, rights, ores, bullion or other property owned or possessed by said corporation.

Third. The principal office of this corporation shall be kept at the town of Kingman, in the county of Mohave and Territory of Arizona, at which office the principal business of said corporation shall be transacted.

Fourth. The amount of the capital stock of said corporation shall be Two Million Dollars (\$2,000,000.00), divided into Four Hundred Thousand shares (400,000), of the par value of Five Dollars (\$5.00) each, and which shall be non-assessable.

In Witness Whereof, The said Ben. H. Spear, W. H. Taggart, E. Williams, Wm. G. Blakely, Robert Steen, James J. Hyde, Gus W. Beecher, William Richards, O. F. Kuencer and E. F. Thompson, have hereunto subscribed their names and affixed their seals, this ninth day of May, A. D. 1887.
